Welshampton and Lyneal Parish Council

Action Plan: 1 April 2018 to 31 March 2019

Welshampton and Lyneal Parish Council aims to:

- To provide effective, efficient and accountable local government for the parish, enabling residents to be involved in the life of the community and its future development.
- To be a strong voice for residents and local businesses, working to improve the overall parish area both built and natural, while preserving the uniqueness of heritage areas.

The Council's objectives are:

- To understand and communicate the views, needs and aspirations of residents and businesses to statutory and non-governmental bodies as required.
- Increase public involvement in the community through ensuring the parish council and its activities are open, transparent and accountable to residents.
- Support local business and economic activity in the parish.
- Work with other Councils to provide safe, healthy and timely opportunities for recreation, leisure and education.
- To support the work of parish voluntary organizations through grants and practical support
- Respond to planning applications and other statutory consultations on time, ensuring that recommendations made to Shropshire Council adhere to the community plan, any statutory regulations, and the interests of the community.
- Promote, within our community, activities which support the principles of environmental sustainability and an ethical society, working with others to keep public places clean and safe.
- Ensure that Councilors and Staff have access to high quality training and development opportunities and that they meet all required standards, for example working towards achieving Quality Council status.

A Business Plan for 2018 – 2022 was adopted in April 2018 which included the principles of the Council's aims and objectives.

The Council monitors progress of the Business Plan through an Annual Action Plan. It is a 'live' document which the Parish Council updates on a regular basis, enabling the Council to track and monitor progress against the objective and timescale. The Action Plan is publicly available, so residents can also monitor progress.

To ensure the Action Plan truly represents the Parish's best interests, the Parish Council will invite the local community to participate in its development.

The Action Plan will continue to be the main way of telling you what we are doing to meet the needs of the community.

It is a two-way conversation. Please tell us what you think about it. We welcome your comments. If you require any further information that would help you understand what we are trying to achieve, please let us know.

We can also provide additional information on the issues raised in the Plan.

Monitoring Report date: 12 September 2018

Title	Issue	Action	Objective	Timescale	Budget	Update	Completed
